

UBDHB 122R

hollow space floor box, single, round

Hollow space floor box, consisting of a Sendzimir hot-dip galvanized sheet steel box; all sides can be bent open; including earthing clamp, for subsonic noise-free and height-independent mounting. Can be used as pull or installation box, with a mounting opening as a collet for a shuttering unit that is replaced with a single outlet BODO during final assembly.

material	sheet steel, hot-dip galvanized
type of assembly	Mounting on raw concrete ceiling
application area	screed-covered duct system for tubes M 20 / M 16
permits	according to VDE / TÜV
norm	according to DIN EN 50085

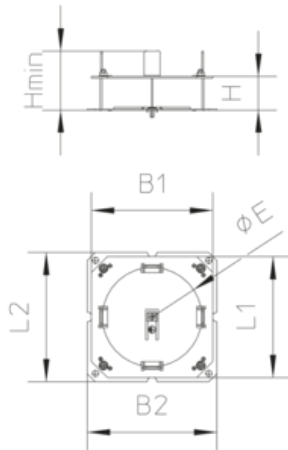

Continuously hot galvanized (Sendzimir process) (DIN EN 10346)
